

40%

Reduces COST

Save on equipment when using the BrandTech® Power Distribution Unit.

The math is simple: reduce complexity and increase equipment cost savings. With the new BrandTech® Power Distribution Unit (PDU), equipment costs are reduced by as much as 40%. Plus, the new design has eliminated obsolete components for simplified installation and maintenance as well as improved safety.

The UL/CSA-listed BrandTech PDU uses a single installation to manage up to 200 amps of input and distribute it to three outputs of 480V, 60 amps each.

BrandTech®
Power Distribution Unit

BRAND SAFWAY®

At Work For You™

**Industry-certified,
field-tested and approved**

**An innovative, new power distribution unit
that revolutionizes circuit breaker design.**

Advantages

- › A single PDU can be used with multiple machines in applications ranging from industrial painting to welding.
- › It is fully insulated and resistant to shock, impact and corrosion, and includes embedded lockout/tagout levers.
- › 30-milliamp ground-fault circuit interrupter (GFCI) for improved safety.
- › The breakers are mounted under a hinged window for easy access and improved safety.
- › Each machine is plugged into a separate port with its own circuit breaker, making it easy to know which one to shut down in an emergency.

☒ **UL/CSA Listed**

The PDU went through UL (Underwriters Laboratories) and CSA Group (a global organization dedicated to safety) testing and was listed under UL 1640 and CSA C22.2, No. 14-13 certifications.

☒ **NEMA 3R Rated**

Enclosure is designed to protect components in an outdoor environment.

See how the BrandTech® PDU can reduce complexity and increase equipment savings. Contact us today at **800 558 4772** or by filling out our contact us form at **www.BrandSafway.com/contacts**.
