

SmartView 3D

Augmented Reality Solutions in Real Time

See multiple value-driven solutions anytime, anywhere — out in the field or in your office — with our SmartView 3D app. Using augmented reality, we can instantly display field-verified solutions on site in as-built conditions. Let us help you compare options, prove viability, and streamline communication.

The Future of Construction Planning

With SmartView 3D, digital renderings of scaffolding, weather protection, elevators and more can be placed onto visible surfaces in the app's camera feed, virtually creating the solution in the exact, as-built conditions of the jobsite.

Find the Perfect Solution

- › See complete solutions before anything gets built.
- › Swap between multiple solutions live and on site to find the best option.
- › Validate whether planned solutions will fit.

Communicate Effectively

- › Export screen captures to include them in plans and work packages.
- › Use clear visuals to collaborate with engineers and teams.

Share Solutions and Information Easily

- › Leverage 3D designs from local, shared and project-based BIM 360 libraries.
- › Use placement functionality in virtual or as-built conditions to share renderings and solutions.

BrandSafway provides access and industrial service solutions with turnkey installation, engineering support and safety training.
