

› Let BrandSafway help you access new heights.

With more than 100 years of experience and our advanced planning, engineering and project management expertise, we can deliver your project on time and on budget.

QuikDeck® Suspended Access System

Provides factory-floor-like working conditions. Build in the air or on the ground and hoist into place with basic components that are easily handled by one person.

Spider® Powered Suspended Access Solutions

The clear leader in powered suspended access solutions. Traction and drum material hoists, work cages and baskets, modular work platforms, rigging equipment, and fall protection systems.

SafTran® Transport Platforms

For structures up to 150 feet high. Move crews and materials with lifting speeds of 40 feet per minute. Variety of configurations and wide-opening gates ease handling of large, heavy material. Available in single- and double-mast installations. Designated operator not required.

Aluma Systems Forming & Shoring

Delivers the broadest range of concrete forming and shoring solutions, including wall, slab and climbing formwork, shoring systems and edge protection. Aluma has improved on-site productivity 38% and reduced pour cycles 40%, so you can build, faster, safer and smarter.

Building Maintenance Units

Designed to give access to the outside façades of tall buildings for maintenance purposes which includes, replacing glass panels, window cleaning, repairs and inspections.

HAKITEC® 750 Protection Systems – Temporary roofs, shelters and buildings

Cover large, wide, uninterrupted spans and fit almost any shape and size while protecting assets, equipment and structures or creating a barrier from the weather. Safe, quick and easy to erect using modular components.

Edge Protection, Stair Towers & Trash Chutes

Let us help you create a safe jobsite with edge protection, netting and containment solutions, stair towers and ramps for public access, and trash chutes for debris removal.

Scaffold Solutions

Delivering the broadest range of scaffold solutions – Sectional, Systems™, Tube & Clamp, CupLok®, SafMax®, and SafLock System Scaffold® – supported by the most advanced engineering team in the industry.

BrandSafway provides the widest range of access and industrial services in the industry.
